Taylor's DiSC® Style

Everything DiSC® 363™ Coaching Supplement

The purpose of this report is to provide supplemental information to help you coach Taylor Meyer through his feedback in *Everything DiSC® 363™ for Leaders*.

We'll start by giving you an overview of Taylor's DiSC® style.* While *Everything DiSC 363 for Leaders* is based on the DiSC model, Taylor does not need to know his DiSC style to understand the feedback. However, for you as Taylor's coach, it may be helpful in interpreting the multi-rater feedback.

Next, you'll find Taylor's scores for the Leadership Behavior and Leadership Requests sections. In addition, we'll provide norms that represent the average score of all leaders who have taken this assessment.

Finally, you'll find a Performance Gap Analysis that compares Taylor's performance to the typical performance expected for someone with his DiSC style.

DiSC Style based on Leader's Responses

Leader Performance Rating based on Rater Responses

Taylor's Style: Di
Primary Style: D
Secondary Style: i

Close to the Edge or Close to the Center?

The position of the dot shows that Taylor is **moderately inclined** toward the Di style. His dot isn't at the outer edge of the circle, but it's still fairly close to the Pioneering, Commanding, and Energizing approaches.

Take a look at the graph to the left, which shows how Taylor's raters saw him on each approach. Consider the following questions:

1. Does Taylor's DiSC style seem to be affecting how his raters see him?
2. If so, what might be the best areas of focus for Taylor?
3. If not, what other factors might be influencing his ratings?

*This report assumes that the facilitator/coach has a strong working knowledge of the DiSC model.

Leadership Requests

Everything DiSC® 363™ Coaching Supplement

On each of the 24 leadership practices, Taylor's raters were asked if they would like to see him do more. The answer, "Yes, a lot more" has been given a weighted value of 10; "Yes, a little more" has a weighted value of 6.67; and "No" has a value of 0. Therefore, the higher the score, the higher the demand for improvement. Very few scores will fall above the 5.0 range. The table below lists these average Leadership Requests scores from highest to lowest score. The "Norm for all Leaders" column shows the average score of all leaders who have taken this assessment.
