

MANAGEMENT RESOURCE SERVICES AWARDED 5TH CONSECUTIVE GSA CONTRACT

RE: PRESS RELEASE SEPTEMBER 16, 2022

We are proud to announce in July 2022 Management Resource Services was awarded its 5th consecutive GSA Contract for Professional Services from the U.S. General Services Administration. This distinguish, 5-year contract recognizes our continued ability to deliver training products and consultative services across the federal government.

Our GSA Contract is pre-approved for all federal agencies and most state and local government entities to purchase products from our GSA contract. An agency contracting office can simply issue a request to purchase and we will deliver the product based on pre-approved pricing from our contract. We are extremely excited to continue to offer our federal clients an easy process to buy products and services.

Specifically, our products and services support in-house learning and development programs supporting professional development for staff and management employees. For example, we make available the entire line of Everything DiSC® Training Assessments to federal agencies' Learning and Development Centers.

Our staff has worked hard over the years to better understand the needs of federal clients and to customize our offerings to meet those unique needs. We are extremely proud of their work and congratulate them in recognition of this new contract award for MRS!
